Cancer Reseach

2015 – 2021

AWARDS

Duke of Edinburgh's Bronze Award

PROFILE

Hi, I'm Yasmin, an ambitious final year computer science undergrad at Goldsmiths, University of London, where I have gained experience in Python, MATLAB, Java, JavaScript and more. You can find many of my projects on my portfolio.

I am an analytical thinker who has an interest in back-end development. I have strong technical skills, particularly in deep learning, algorithms, and data structures, and enjoy solving problems in unique ways.

Due to graduate summer 2022, I am eager to secure a challenging graduate scheme opportunity to put my knowledge and skills to use

EDUCATION

Bsc Computer Science

Goldsmiths, University of London

Oct 2019 – Jun 2022 | London

- On track to graduate with a first-class degree
- Second year average: 92%
- First year average: 82.5%

Foundation Year in Computer Science

Goldsmiths, University of London

Oct 2018 – Jun 2019 | London

Langley Park School for Girls

Sep 2011 – Jul 2018 | London

- A-Level IT, Economics, Psychology
- GCSE Maths, English, Science, 8 additional GCSEs

PROFESSIONAL EXPERIENCE

Goldsmiths, University of London

Department Student Coordinator

Oct 2021 – present | London

- I organize and lead meetings with program representatives and senior leadership to discuss any issues in the department and possible solutions.
- I have bi-weekly meetings with department undergrad directors to follow up with any new plans established in result to from student feedback.
- I work with senior leadership and the student's union on a collage-wide curriculum review proposal.

Program Representative

Sep 2018 – Jun 2021 | London

I worked with staff to improve the student learning experience; I gathered feedback on the curriculum, students' progress, assessments, the learning resources, and teaching processes. I then worked in partnership with staff to negotiate solutions to problems where possible.

Mathematics Teaching Assistant

Langley Park School for Girls

Sep 2016 – Jun 2017 | London

I spent time explaining new topics to individual students or groups, helped students when they were having problems working through practice questions and checked student's classwork and gave them feedback as they were working.
